Honda SMARTrainer

Wise up your riding skills with Honda's SMARTrainer

'The SMART is a highly effective tool to help beginning riders – as well as returning riders who need a mental tune-up'

The Honda SMART, a first in traffic simulators exclusively for motorcycle training.

The Honda SMARTrainer traffic simulator is the latest tool in helping riders develop defensive riding skills.

The SMART has motorcycle controls to put the operator directly in the rider seat – literally.

Don't let the rudimentary graphics fool you, the SMART engages the operator with valuable awareness training for the real world.
