| <b>About the Job</b>  | <p>The incumbent serves as the command's Information Assurance Manager (IAM). Plans, develops, implements and maintains programs, policies, procedures to protect the confidentiality, integrity, authority, non-repudiation and availability of automated systems, networks and data. Trains and educates personnel on information systems security practices. Plans for an IA awareness program to include end user and privilege user training and certification as required by DoD and Navy regulations. Develops a Configuration Management (CM) Plan to document and test the hardware and software changes to the accredited system and network baseline throughout their operational lifecycle. Reviews threat and vulnerability assessments to analyze the risk to the command's Information Systems and networks and determines appropriate measures. Reviews risk analysis and accreditation documentation. Acts as the Information Assurance project advisor for IT projects and separate procurement actions. Takes part in planning and coordinating the installation, testing, operation, troubleshooting and maintenance of hardware and software systems.</p> |  |
| <b>OPM Qualification Requirements</b>   | <p><b><u>APPLICANTS MUST MEET EXPERIENCE REQUIREMENTS:</u></b></p> <p><b><u>EXPERIENCE:</u></b> One (1) year of specialized experience equivalent to at least the GS-11 grade level is required. Specialized experience is experience that has equipped the applicant with the particular competencies/knowledge, skills, and abilities to successfully perform the duties of the position and is typically in or related to the work of the position to be filled. Such experience is typically gained in the IT field or through the performance of work where the primary concern is IT.</p>  |  |
