LEGOLAND DISCOVERY CENTER TOKYO

JOYPOLIS

KidZania Tokyo

Odaiba (お台場) is a popular shopping and entertainment district on a man made island in Tokyo Bay. It originated as a set of small man made fort islands (daiba literally means "fort"), which were built towards the end of the [Edo Period](#) (1603-1868) to protect [Tokyo](#) against possible attacks from the sea and specifically in response to the gunboat diplomacy of [Commodore Perry](#).

More than a century later, the small islands were joined into larger islands by massive landfills, and Tokyo began a spectacular development project aimed to turn the islands into a futuristic residential and business district during the extravagant 1980s. But development was critically slowed after the burst of the "bubble economy" in the early 1990s, leaving Odaiba nearly vacant.
