Navy Bases Prepare for Hurricane Season

04/14/15
By Commander Navy Installations Command Public Affairs

The purpose of this annual exercise is to prepare the Navy to respond to weather threats to U.S. coastal regions, and to maintain the ability to deploy forces even under the most adverse weather conditions.

HURREX/CG 15 will involve two simulated storm systems developing and intensifying to hurricane strength, threatening the Caribbean Islands, East Coast and Gulf Coast regions.

All Navy commands with personnel in these regions will participate, to include reviewing and exercising heavy weather instructions and procedures and accounting for Sailors, Department of the Navy civilians, and Navy families in the affected regions through the Navy Family Accountability and Assessment System (NFAAS).

There will be no U.S. Navy ship movements associated with HURREX/CG 15.
