

NAVY INFORMATION OPERATIONS COMMAND, SUGAR GROVE

Environmental Policy

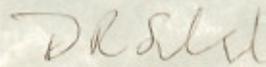

Navy Information Operations Command, Sugar Grove is committed to environmental compliance with local, state, federal, and Navy environmental laws, regulations, and policies. We acknowledge that environmental stewardship is essential to the safe, healthful, and compliant execution of our mission and the protection of our natural resources.

Guiding Principles

We are committed to preventing pollution at its source whenever possible. To achieve our goals, we have adopted the following guidelines for our environmental management system. Follow these guidelines in your daily efforts:

- Incorporate practices that minimize or eliminate impacts to the air, water, soil, wildlife or fellow humans.
- Review and evaluate each job performed, and seek opportunities for continual process improvement to eliminate damage to the environment, and seek advice from environmental professionals.
- Seek assistance from the Environmental Division if there are any doubts or questions.
- Educate yourself and become an informed environmental proponent for your work place.
- Develop objectives and targets and implement sustainable practices to reduce environmental impacts.

Fulfilling the mission in a safe and environmentally sound manner is of paramount importance. I expect each individual to identify environmental hazards and employ sound environmental practices. The support of all hands is required to create a healthy and safe environment for all persons who visit, work, and live at NIOC Sugar Grove.

D. R. SCHELB
CDR, USN
COMMANDING OFFICER
